

General Event Information as of 2018

Registration Fees for SCCA Yellowstone Region 108 Events:

Regular SCCA Members \$35.00

Non-Members \$50.00

Double header weekends, if you register for both days:

Regular Members \$55.00 total

Non-Members \$80.00 total

We accept cash & credit cards only.

We offer a 50% discount (\$25.00 registration) for first time autocross drivers at your first autocross day (double header weekends, if you register for both days \$55.00 total).

Be sure to tell us at registration you are new to autocross, so we can get an experienced driver to show you the ropes.

We usually hold a driver's meeting at 9:00am, and start running shortly after. All drivers MUST attend the meeting in order to participate. Please try to arrive at the event site by 7:45am to ensure you have time for registration, getting your car ready, and walking the course before the meeting.

Virtually any vehicle is eligible for autocross, provided it is in generally good mechanical condition & the wheel track (center to center of tires) to height does not exceed a 1:1 ratio (no taller than wide, within reason).

A brief tech inspection will be performed, checking for things like loose wheels, excessive steering slop, spongy breaks, etc. The number one cause of tech failures is not having the battery properly tied down, please double check that before the event (no bungi cords).

The SCCA classes all cars based on what the car is, and what modifications have been done. The SCCA Rulebook (there is a link on our website) contains all the classing information. Please try to class your car before you arrive but feel free to ask at an event or better yet use the "contact us" feature on our website or ask on our Facebook if you need some help classing your car before event day.

Join the SCCA @ www.scca.com

Membership is \$85.00 for single and \$105.00 for family. (subject to change without notice)
