First Club Meeting of 1999

FEBRUARY MINUTES

The February meeting was called to order by Assistant RE: Bobby Arnett. Minutes were approved as printed in the last newsletter.

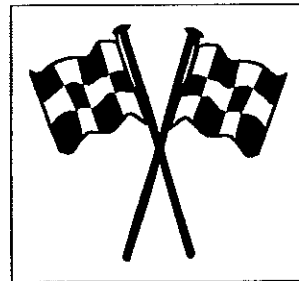

OLD BUSINESS

Since there were no further responses to the go-kart questionnaire, the committee reported their findings. It was discovered that according to a previous newsletter printed in September 1992, go-karts were approved to race provided they met with SCCA safety regulations.

Kurt Schulz reported on the Billings Motorsports Park meeting. The survey work and contour maps have been completed.

NEW BUSINESS

Pat Polk heads a committee to talk with Bill Chiesa at Metrapark about possibly securing the upper parking lot at the Metra for a couple of nighttime events this season. Cary Devitt is currently checking into trying to secure the parking lots at The Home Depot and the K-Mart in the heights for future events also.

Ordering New Rule Books Now

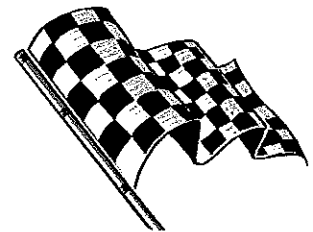

I will be taking orders for the new SCCA rule books at the March 3rd meeting. Please make sure you have payment with you at the time you place your order to avoid me trying to hunt you down for payment later. If you can't attend the meeting, send me the info on which book(s) you want and you will be billed at a later date.

Thank you Outgoing Board !!

A BIG thank you goes to the outgoing board for all of their hard work and dedication the past year. These people have also served in various other capacities throughout the years and without their help, the club would not have gotten this far. I hope that as a board member myself and new to the club, the other officers and I can forge ahead with the same dedication to the sport.

Cybil Layton
Secretary/Treasurer

In the March newsletter I will be printing a racing schedule (tentative only) We are still in the process of trying to secure crucial sites.

You Might Be a Racer If..

1. You mow your lawn and find three cars in your yard.
 2. You remember the dates and details of every race you've ever been in, but can't remember your phone number.
 3. You hate long distance driving, but you will gladly drive 250 miles in a circle.
 4. You find that you need a new house because you've outgrown your garage.
 5. You save broken car parts as "mementos".
 6. You know the "racing line" of every turn in your daily commute, including your alternate routes, and practice hitting them every day.
 7. You have enough spare parts to build another car.
 8. People know you by your class letter, car number, and car color.
 9. You buy new parts because you don't know where you put the spares.
 10. You feel compelled on a road trip to beat your previous best time.
- I found these in the Feb. 99 edition of Redline Express. Jackie Ruegsegger of the Colorado Region found these on the internet. There were several more listed, but I thought these were pretty

humorous. Not to mention great filler for when noone submits articles!! If you don't like them, then do me a favor....PLEASE SEND ME SOME ARTICLES!! I could really use the help from all of you. If you have some articles you've written or even some you've read somewhere else (get permission to print them first) send them to me and I'll try to print them over the course of the upcoming season.
